Information

The IN2PREV “**Law enforcement and community cooperation and training approach to prevent radicalisation by ensuring refugees’ successful inclusion**” project strives broadly respond to the needs of NGOs and LEAs professionals who work with refugees and asylum seekers in European host and transit countries, intending to ensure successful inclusion and integration towards preventing the latter’s radicalisation. Thus, the project has the goal of addressing them through innovatively training and capacitating NGOs and LEAs practitioners on the prevention of radicalisation amongst the refugee and asylum seeker population, thus aiming to enhance their crucial involvement in this field.

As part of the project, IN2PREV will deliver **innovative and needs-based training programmes**, looking to **upscale the practical capacity of frontline practitioners in LEAs and NGOs** to facilitate refugees/asylum seekers’ integration and prevent their radicalisation through the early identification of vulnerability factors.

Therefore, **the project will present three training opportunities:**

- e-Learning training course on training the trainers;
- **b-Learning training course on preventing and identifying vulnerability factors to radicalisation on refugees and asylum seekers;**
- b-Learning training course to facilitate refugees and asylum seekers’ integration through mentoring.

Thus, IN2PREV will implement an b-Learning course on ‘Preventing and Identifying Vulnerability Factors to Radicalisation of Refugees and Asylum Seekers’. The **course strives to implement and promote the training of LEA and NGO professionals** to better prepare them to prevent and identify vulnerabilities in these communities and use the Frontline Extremism Vulnerability Risk – Structured Evaluation Screening (FEVR-SES) tool developed as part of the project.

The programme addresses radicalisation and violent extremism, working with persons in vulnerable situations and vulnerability factors, the FEVR-SES tool, collaboration and communication, as well as preventive mechanisms to act upon conflicts.

The training follows an **e-Learning and self-paced modality to be completed in the Corrections Learning Academy** and is **directed at law enforcement agencies and non-governmental organisations. The training is only available in English.**

The successful completion of the training opportunities in the IN2PREV project results in the attribution of a Certificate of Completion and the possibility of being invited to attend in-person training events (i.e., Poznan, Bratislava, Granada) during the project.

Registration

Who can complete the training course?

The IN2PREV 'Preventing and Identifying Vulnerability Factors to Radicalisation of Refugees and Asylum Seekers' programme is **directed to law enforcement and non-governmental professionals** in the field of radicalisation prevention amongst refugee and asylum seeker communities – or others working on this goal – in **Bosnia and Herzegovina, Moldova, Poland, Portugal, Romania, Slovakia, and Spain**.

How long is the training course?

As the specific content of each training module is still to be determined, the current time estimation is not the final. The registered participants will receive the detailed time.

However, the total duration of the IN2PREV 'Preventing and Identifying Vulnerability Factors to Radicalisation of Refugees and Asylum Seekers' e-Learning course is **estimated at around 12 hours**.

Are you interested in completing this training course?

If you fit these criteria and are interested in completing the training, **please follow this link** (<https://forms.gle/Ea667USDzeKE4ebYA>) **to officially register**. Alternatively, you may contact us to express your interest in being added to the e-Learning.

We kindly inform you that **the starting date for the training course is foreseen for September 2024**. After successfully registering, you should expect an email in due time with your credentials to log in to the Corrections Learning Academy and access the online training course.

Structure

As crucial activities of the IN2PREV project related to the training are still ongoing, **the specific content of each training module is still to be determined**. As soon as this data is available, **the registered participants will receive the detailed structure**.

Module I

Understanding radicalisation, violent extremism, and its process

TBD

Module II

Working with vulnerable groups and attentiveness to vulnerability risk factors

TBD

Module III

Implement the Frontline Extremism Vulnerability Risk – Structured Evaluation Screening (FEVR-SES) tool

TBD

Module IV

Collaboration and communication with national (and international) stakeholders

TBD

Module I

Preventive mechanisms to act upon conflicts (that may occur amongst migrants and between migrants and citizens), including offender and victim mediation

TBD

IN2PREV

Law enforcement and community cooperation and training approach to prevent radicalisation by ensuring refugees' successful inclusion
